WORK EXPERIENCE

Frontend Developer | Freelance August 2023 - Present

- Developed responsive and dynamic web applications using ReactJS, Redux Toolkit, Tailwind JavaScript, and TypeScript. Designed UI/UX with Figma and collaborated using Git.
- Occasionally worked with the MERN stack (MongoDB, ExpressJS, ReactJS, NodeJS) for fullstack projects.

Final Year Internship | E-learning Platform 2023-2024

- Worked in a two-person team, where I handled the frontend using ReactJS, Redux Toolkit, TailwindCSS, and Figma, while my teammate developed the backend with Laravel. Collaborated on system design (UML) and version control using Git (GitLab).

Collaboration with a Content Creator | Frontend Development 2023-2024

- Developed the frontend using ReactJS, Redux Toolkit, TailwindCSS, and Figma
- Ensuring a seamless UI/UX. Managed version control and collaboration through Git.

Graphic Designer | Freelance 2019-2021

- Designed logos, covers, banners, and other creative visuals to enhance brand identity and engagement.
